

DIRECTORY BOARD

DIRECTORY BOARD

The INDICATO family of cabinets have been designed using a wide range of styles in order to meet your every display need. All cabinets are made using satin anodized aluminium frames and doors, piano hinged door frames and the highest quality display or posting surfaces. Each unit is assembled and then individually inspected to ensure the highest quality and long term service. Many Indicato cabinets can be manufactured to meet the requirements of an exterior site installation.

Glass is used as our standard surface covering. Our economy models feature an acrylic surface covering. On a custom order basis, other materials can be used which will satisfy your safety and security needs.

Indicato cabinets are wall mounted using concealed hardware. They can be easily installed without special tools.

Indicato cabinets are widely used in offices, restaurants, hotels, schools and any other place where display information signage is required. Anywhere you have a need to display information, there is either a stock or custom Indicato cabinet to meet your needs.

BEST VALUE ...

SERIES 80

This classic open faced directory board comes with a satin anodized aluminum frame. Plastic characters are held firmly by the surface in order to display your message.

SERIES 61V

A modern looking aluminum framed cabinet with a standard key lock. The piano hinged door features an acrylic surface and a decorative black vinyl inlay.

SUPERIOR...

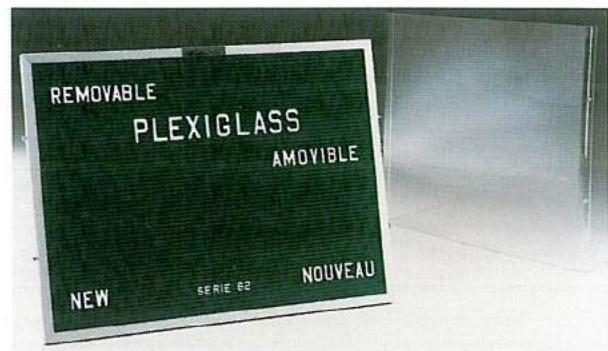

SERIES 60

This series allows the viewer a clear unobstructed view of the entire display area in one glance! The cabinets are made of heavy gauge extruded aluminum with a clear satin anodized finish. The information display panels can be easily removed. Display panels can be interchangeable and feature different surfaces including natural cork, grooved letter, and magnetic white board. The cabinet has two sliding glass doors with integral finger pulls and heavy duty lock.

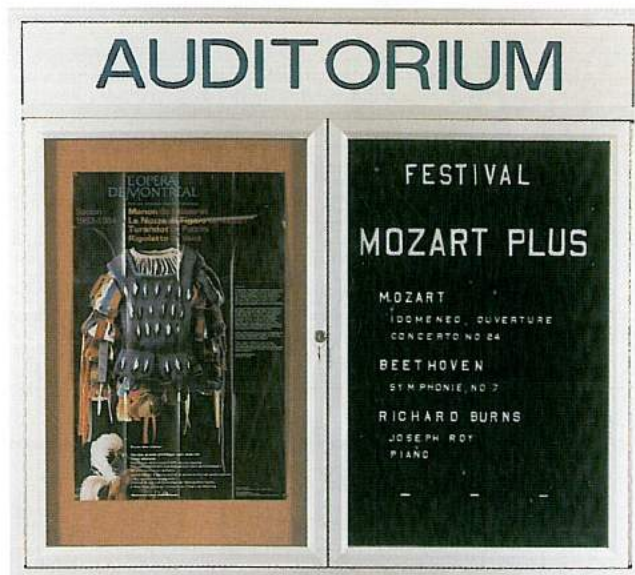

SERIES 81

This economical unit has a single hinged door with an acrylic surface. A screw lock protects your messages within the light yet strong aluminum frame.

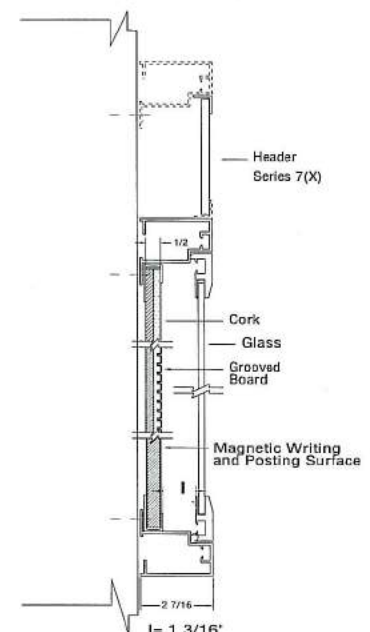

SERIES 82

Our standard open faced directory board (Series 80) with a screw mounted acrylic cover to protect your messages.

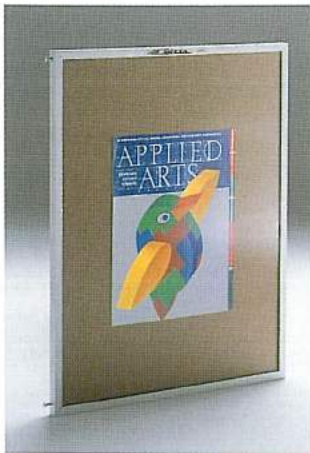

SERIES **61** – 1 door
SERIES **62** – 2 doors
SERIES **63** – 3 doors

SERIES **71** – 1 door with header
SERIES **72** – 2 doors with header
SERIES **73** – 3 doors with header

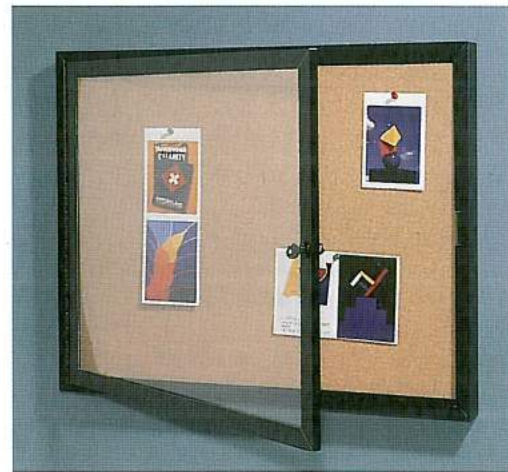

SERIES **6x** and **7x**

Our most popular series – Series 6x and 7x. Depending upon size, choose between one, two or three doors. All doors have full length piano hinges and a flat key tumbler type lock. The information display panels can be easily removed and are interchangeable. Panels feature different surfaces including natural cork, grooved letter panels, and magnetic white board. Series 7x features a header area for more permanent signage. This header area can be electrically back lighted. Both Series 6x and 7x can be manufactured to exterior site installation specifications.

SERIES 83

A convenient way to exhibit posters and other information in a public place. Information on display can be easily and simply updated by removing part of the side frame to allow the acrylic surface cover to slide off the information display area.

SERIES 61E

A quality cabinet with a single piano hinged door, float glass and key lock. Shown with optional black anodized aluminum finish.

SERIES 61

SERIES 63

Optional features for Series 6x and 7X :

- Tempered glass
- Lighting system
- Recessed installation kit including perimeter trim
- Outdoor installation

Removable Display Panels

Information display panels can be easily removed and are interchangeable. Panels feature different surfaces including natural cork, grooved letter panel and magnetic white board.

SERIES 69

Series 69 INDICATO wall mounted sliding glass door cases are handsomely designed and built to provide ample protection for exhibits. The cases have an attractive "grey granite" melamine finish. Sliding doors move easily over first quality nylon rollers and are fitted with a secure key lock. Complete with two adjustable glass shelves and a natural cork back panel.

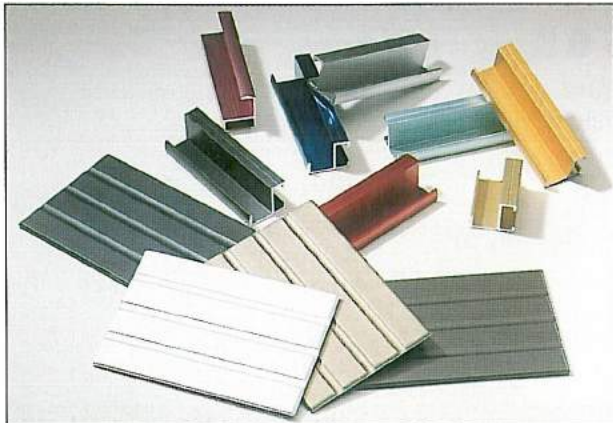

Optional features :

- Additional glass shelves
- Lighting systems
- Tempered glass
- Custom sizes, including depth
- Recessed installation
- Outdoor installation

INDICATO

ALUMINUM FRAMES

All frames are made from extruded aluminum (type 6063-T5) with a clear satin anodized finish. Frames conform to specifications ONGC-63-GP-2M. Corners are neatly mitred and double reinforced for extra strength and rigidity. Frames are available in anodized finish or enamelled in black, bronze or white.

EXTERIOR SITE INSTALLATION

On a custom order basis, Series 6x and 7x can be supplied for exterior site use. The following are added to our standard units :

- stainless steel hinges(s)
- silicone sealant in every joint
- rubber type gasket seal around doors
- galvanized steel sheeting sealing the back of the unit.

GLASS

All cabinets are furnished with first quality float glass (Can2-12.3 M76) (ONGC-F-12-GP-3B). Upon request, tempered glass (Can2-12-1 M76 Cat. B) polycarbonate or acrylic are also available.

DISPLAY PANELS

A wide selection of surfaces are available to you. Pinning surfaces include natural cork (standard), deluxe cork, or fabric covered. Writing or message surfaces include grooved letter panels (standard - black), non-magnetic white board, magnetic white board or chalk writing surface.

● = All other color are optional

How to order

Follow these simple steps :

First write the serial number (80, 83...) followed by the size (H x L : 18" x 24") then the surface code you require (4, 5...) (5 for deluxe cork, etc...) then write the color number.

■ Ex.: 80-1824-73

80 (frame), 18"x 24"(size), 7 (fabric), 3 (grey)

80 1824 7 3

SERIES NO	SIZE	SURFACE	COLOR
-----------	------	---------	-------
